

SUMMARY

Aspiring Data Scientist with **Bachelor in Computer Science** with 6 months of experience using predictive modeling, data processing, data mining algorithms, hands-on experience leveraging machine learning, transfer learning models to solve challenging real time problems.

SKILLS

- Machine Learning
- Statistics
- HTML
- Python
- Data Structures
- CSS
- SQL
- Java
- Java Script
- MongoDB
- Flask
- Problem Solving

WORK EXPERIENCE

Machine Learning Intern (Ineuron Intelligence Pvt Ltd)

(March 2023 - June 2023)

- Project Name: **Consignment Price Prediction**
- Created data-driven predictions** for proactive supply chain challenge resolution, cost optimization, and improved service levels in logistics organizations.
- Utilized and explored classical machine learning tasks, including data exploration, **data cleaning**, feature engineering, **model building**, and model testing.

PROJECTS

Car Price Predictor

(Aug 2022 - Sep 2022)

- Developed car price prediction** model through Kaggle data, involving feature engineering, handling missing values, **one-hot encoding, and data analysis**.
- Trained model using various regression algorithms, selecting the best based on **r2_score/MSE**.
- Launched front end using HTML and CSS, application deployed on Heroku and render.

Web Scraping

(May 2022 - June 2022)

- Extracted structured data for market research.
- Monitored data with **urllib and beautifulsoup**, created UI using Python Tkinter.

PUBLICATIONS

Power Generation using Footsteps

Oct 2019

- Crafted mechanism** for Electricity generation using rack and pinion.
